#### STATEMENT OF OBJECTS AND REASONS.

The Royal Commission on Labour drew attention to the desirability of regulating the working of small power factories which were outside the scope of the Factories Act, in respect of matters relating to health and safety. They also pointed out that the age and the hours of labour of children in such factories were unregulated. The Bill is designed to prevent the employment of children in the risk of employment and to regulate the employment of children in such factories. It extends the provisions of the Factories Act, dealing with health, safety, children and registration, to power factories employing from 20 to 100 persons. If any of these persons is not qualified to work as an adult, Provincial Governments who have been exempted, the provisions of the Act shall apply to any of these persons who are not qualified to work as an adult.
